The space-age styling of Denon's Urban Raver AH-D400 Over-Ear Headphones contains radical new audio technology, for an equally modern take on music. Featuring a 50mm driver and an integrated power amplifier for a deep but controlled bass experience, these Denon Urban Raver Over-Ear Headphones offer a ground-breaking sound experience along with Denon's control wheel allows easy control of Apple® iPods®, iPhones® and iPads™, while blue LED illumination and highlights makes a striking design statement.

### SOUNDS LIKE YOU

#### A new type of Denon headphone for the latest music

The latest music genres demand a new type of headphone. And Denon has delivered with its new Urban Raver designs. Presenting the kind of deep but controlled bass experience expected by lovers of techno, trance, hip-hop and drum 'n' bass, these radical headphones recreate the club atmosphere wherever you may be. Crammed full of proprietary Denon technology, these headphones offer a powerful audio experience that perfectly suited to contemporary music genres.

#### Technologically-Advanced, just like your music:

Denon's Urban Raver AH-D400 Over-Ear Headphones feature a 50mm driver, a built-in headphone amplifier and rechargeable battery for an intense sound. You can choose between two different sound signatures, with the amplifier on or off. The rechargeable battery lasts for 12 hours, but your music doesn't have to stop when the battery runs out – you can still enjoy your favourite tunes in passive mode.

### FITS LIKE YOU

#### Feel the music. Not your headphones

At Denon we believe you should feel the music, not your headphones. In a quest to provide the most comfortable headphones, Denon's engineers have studied over 4,000 pairs of ears from people around the world, to come up with a design that automatically accounts for the subtle differences in ear shape, placement, ear canal size, and head size. We know that fit and comfort comes from paying attention to the smallest details. Denon's patent-pending pentagonal-shaped memory foam ear pads provide exquisite comfort, while our ball and socket ear cup design delivers the ultimate custom fit.

### MOVES LIKE YOU

#### Designed for those who set the trend, not follow it

Denon's Urban Raver AH-D400 Over-Ear Headphones are specifically designed for those who set the trend, not those who follow it. Featuring eye-catching colour combinations, illuminated LED lighting and sculpted styling these headphones make a striking design statement.

#### Complete control from Denon's Control Wheel and microphone

Denon's Urban Raver AH-D400 headphones feature Denon's patent-pending control wheel on the ear. This allows easy control of your Apple® iPhone®, iPod®, or iPad™, and an integrated microphone for crystal clear call and voice recognition clarity. The Denon control wheel mimics the operation of a conventional rotary control. To turn the volume up, simply rotate the right control wheel forward. Volume down? Rotate the right control wheel backwards. Press the centre of control wheel to pause music or answer a telephone call.

### Right Control Wheel Functions
